Terms of Reference for the Procurement of Goods

LLC Gardabani TPP is conducting management and operation of its own, first 230 MW combined cycle thermal power plant in Georgia. General Electric manufactured 2 gas turbines and 2 generators constitute one of the main components of the power plant. According to the manufacturers' recommendations and Operation & Maintenance Manuals, in the course of operation gas turbines as well as other equipment existing in the power plant require periodic maintenance/inspections. General Electric manufactured 6FA type gas turbines after 24 000 operated hours require Hot Gas Path Inspection. The purchase of relevant spare parts is required for the implementation of the above mentioned inspection.

LLC Gardabani TPP is planning to procure relevant spare parts and consumables for the above mentioned inspection according to this Terms of Reference.

Commercial operation date (COD) for Gardabani Power Plant is September 28, 2015. Since COD of power plant General Electric manufactured 6FA type gas turbines have undergone technological upgrade. Particularly, upgraded turbines require Hot Gas Path Inspection after 32 000 Factored Fired Hours (FFH) instead of 24 000 FFH. The mentioned upgrade substantially increases maintenance interval and decreases operation and maintenance costs.

Accordingly, goods offered by the bidder shall comply with the above parameters with 32 000 FFH resource.

As it was mentioned above, General Electric manufactured 6FA type gas turbines are installed at the Gardabani power plant, hence, the goods proposed by the bidder must be compatible to the General Electric manufactured 6FA type gas turbines installed at the Gardabani power plant.

The bidder must provide goods in accordance with Table N1 and consumables in accordance with Table N2.

Table N1

The proposed goods must be new, unused, of high quality and must comply with the characteristics set forth in the technical terms and standards applicable for such goods.

During Tender process along with the proposal the bidder shall also submit quality assurance documents for the goods. Particularly: quality certificate issued by the manufacturer, manufacturer's management quality certificate.

The Proposal shall be submitted excluding taxes.

During market research proposal shall be submitted in US Dollars.

Delivery Term: DAT/Port of Import (Incoterms 2010). Customs clearance will be conducted by the purchaser.

- Delivery Period: no later than 12 months.
- Warranty period: 1 year from the installation of goods.
